**With Grateful hearts to Caritas Hyderabad, Pakistan: Flood Response in
Tando Allahyar**

Last year (2022) from mid July onwards, Sindh Province, Pakistan experienced the monsoon rains that rendered many families displaced, homeless, and many farms affected. At first, the rains were welcomed, especially by farmers, since many were facing a water shortage for the cotton, onions, rice and sugarcane crops. However, after few weeks, the situation changed completely, and there was a shift from a situation of drought to a deluge. Record amounts of rain were recorded in many parts of Sindh. As for St. John the Baptist Parish (under Catholic Diocese of Hyderabad), the families and fields were affected too. It is noted that hundreds of families have been displaced. Flood waters forced them to leave their mud walled dwellings, many of which have collapsed. They had to move to nearby higher ground or canal banks. Many of our parishioners are day labourers, working especially in the sowing, weeding and harvesting of various crops.

However, many farms/fields were waterlogged and the crops were completely damaged. In many places the houses and farms were completely destroyed. Currently, many families still do not have source of income since the landlords could not give the people any food rations or payment. The people had already been struggling to cope with the severe increases in cost of many daily necessities such as flour, cooking oil, rice, tea, as well as fruit and vegetables. There are swarms of flies and mosquitoes everywhere, and this has led to a huge increase of diseases. Everyday, we have many people coming looking for food rations, since they have nothing to eat. Many also request medical help and roofing materials. There is no doubt that in the coming days and weeks, many of the families will still face tough challenges as they struggle to recover from the damages caused by the rains. This involves short term and long term response. The short term response involves providing some food rations and the basic necessities especially for laundry and health, while the long term response entails identifying the many families whose houses were destroyed by the rain and purchase for them the roofing materials for their houses.

We are greatly indebted to the Caritas (Catholic Diocese of Hyderabad, Sindh Pakistan) for their positive response to a number of families within Tando Allahyar Parish. The Caritas Hyderabad greatly helped in providing food rations, mosquito nets, tents, toilet kits, winter kit and utensil kits to a number of families. For their great support and response, I would like to thank Bishop Samson Shukardin, Caritas team Hyderabad, and in a special way, my sincere gratitude to the benefactors who generously made it possible in order to respond to the needs of the people during the most difficult times.

APPRECIATION

To,

Caritas, Diocese of Hyderabad

Greetings from Saint Michael Parish Mirpurkhas,

We, parishioners of Saint Michael Parish, are very thankful to the CARITAS and its staffs for the good responses to our appeal toward covid 19, flood and many other activities in our parish.

During Covid, caritas team conducted awareness sessions in many of our illaquis. They provided kits such as face masks, sanitizers, etc as to prevent its spread. They also provided food rations to deserving families deeply affected by covid and lock down.

Caritas also gave food ration to our parishioners who were very much affected by the flood of 2022.

They also help us to protect the environment by offering us tools such as wheelbarrow, head pan, and hoes to be used in the graveyard site and the parish house.

We are grateful to your supports and responses.

May God bless you abundantly.
